Mechatronic Engineer

Bevorzugtes Land oder Stadt:	Schweden
Lohn:	Aus 2000 EUR
Tätigkeitsbereich	It, computer, internet
Beschäftigungsverhältnis	Vollzeit
offer.cv.ready-to-relocate.label	Ja

CV Inhaltsbeschreibung

Design and maintenance of mechatronic systems and industrial robots.

Arbeitserfahrung

01.09.2018 – Bis zum heutigen Tag

Minsk State College of Electronics.

Head of Laboratory of Industrial Electronics

Developed several courses on PLC programming (Siemens PLC 1200, 1500), Robotics programming (CIROS 6, Mitsubishi RV-2SDB, RV-2AJ) and Industrial line assembly (Festo MPS), which resulted in changing the existing mechatronics course toward more PLC and robotics oriented, and expanding the list of possible job opportunities for students. ● Taught courses on Robotics Programming on customer demand. ● Did programming of Mitsubishi`s robots on customer demand. ● Programmed Human Machine Interfaces for industrial customers on demand. ● Put new equipment into operation, which expanded the list of taught specialties in the college. ● Participated in recruiting of students for college and their further development for the next WORLDSKILLS as a Judge.
